# HARSHA KJ

**COMPUTER SCIENCE ENGINEER | DATA ANALYST | FULL STACK DEVELOPER**

+917899080015 | harshakj1711@gmail.com | linkedin.com/in/harsha-kj-906a58346 | github.com/harshakj1715

## SUMMARY

Enthusiastic Computer Science student with hands-on experience in full-stack development and data analytics. Skilled at building user-focused web platforms and transforming raw data into actionable insights using Power BI, SQL and Java. Looking for an internship or entry-level role where I can apply my technical and problem-solving skills to drive real impact.

## PROJECTS

**Power BI Data Analytics Dashboards** **2025**

*Power BI, DAX, Power Query, Data Modeling | Data Analyst*

- Developed interactive Power BI dashboards for Mobile Sales Performance and Uber Trip Analytics, transforming raw data into actionable business insights.
- Analyzed 65K+ mobile units and $54M revenue, uncovering brand, model, OS, storage, customer, channel, and regional sales trends.
- Analyzed 100K+ Uber trips and $51.85M revenue, identifying booking performance, cancellation patterns, peak demand, customer segments, payment preferences, and top locations.
- Built dynamic KPI dashboards, MoM trends, interactive filters, maps, and DAX measures using Power Query and data modeling for comprehensive performance analysis.

**VetConnect : Android Veterinary Assistance & Livestock Management App** **2026**

**J**ava, Android Studio, Firebase,Firebase Storage, Google Maps | Android App Development + Cloud Database

- Developed an Android application that helps farmers register livestock, maintain animal profiles, and store medical and medicine records digitally.
- Built an Emergency Vet feature to connect farmers with nearby veterinary assistance using Google Maps integration.
- Designed the complete Android UI/UX and implemented Firebase Authentication, Firestore, and Storage for secure cloud-based animal data and photo management.

**CampusIQ : Intelligent College Management and Academic Analytics Platform** **2026**

Java, Spring Boot, REST APIs, MySQL, HTML, CSS, JavaScript, Android

- Developed a Web and Android-based college management platform to streamline academic and administrative activities for students, faculty, HODs, and administrators.
- Integrated modules for attendance, examinations, marks, assignments, study materials, timetable, events, notifications, and academic performance tracking.
- Centralized college operations through a unified platform, improving accessibility of academic information and enabling efficient communication between students, faculty, and administration.

## SKILLS

**Programming:** Java, SQL, Python(basics),C

**Web:** HTML, CSS, Node.js

**Tools:** Git, GitHub, VS Code

**Data & Analytics:** Power BI, DAX, Power Query, Data Modeling

**Databases:** MongoDB, Firebase, MySQL

## EDUCATION

**B.E in Computer Science Engineering** **2023 - 2027**

*BGS Institute of Technology, Adichunchanagiri University • CGPA: 8.50/10*

**Pre-University (PUC) - Science (PCMB)** **2021 - 2023**

*Kannada Bharathi PU College • Percentage: 90.66%*

## ADDITIONAL INFORMATION

- **Languages:** English, Kannada, Hindi.
- **Strengths:** Data-Driven Problem Solver (cleaning messy datasets, dashboard modeling), Full-Stack Mindset (end-to-end web platforms).
- **Hobbies:** Cricket, Kho-Kho.
